Profiting from **CHILDREN'S** KINDLE BOOKS

Easy Kindle Publishing: Profiting From Children's Kindle Books

A really great way to get into Kindle Publishing is by creating children's Kindle books. Children's book publishing is very popular and there are lots of tips for quickly creating books. Your kids' books can be fiction, but it's often best to focus non-fiction informational books, because the text is simple.

As long as you have a lot of eye-catching images, and write a book about a topic that both kids and parents will like, it is a satisfying read. A lot goes into writing a children's book, though. You'll need to understand how to research the books, where to get images, how to hire people to help you inexpensively and more. Read on for tips to help make your experience publishing a kid's Kindle book easy and profitable.

About KDP Kids

[KDP Kids](#) is a children focused category for illustrated and chapter books designed just for kids. It includes a set of tools that help authors create and produce digital books in Kindle format that are designed just for kids. They make it simple for authors to use so that they don't have to feel as if they need to be programmers to design a beautifully illustrated kid's book. Like most Kindle books, KDP Kids authors can earn up to 70 % royalties.

To help, KDP Kids offers authors tools to help such as the Kindle Kids' Book Creator, Age and Grade Tools, and even marketing tools. You'll be able to create a professional book for Kids easily and quickly with all the tools they provide. But, first, you need to get your book written.
